INVENTORY OF COUNCIL MEMBER RESOURCES
FOR PATIENTS & KIDNEY HEALTHCARE PROFESSIONALS

Our Resources Inventory offers you a regularly updated listing of contact information for IFKF Members: kidney foundations, patient associations and kidney-related organisations.

IFKF Council Member organisations
Our Members represent kidney foundations, societies, associations, patient and other interest groups from around the globe. Many offer evidence based kidney health education resources specifically created to help educate patients on what they can do to improve their health, to enable them to become an ‘expert patient’. All resources are free to download. Please contact IFKF members directly for hard copies of their information if needed.

In order to keep the Inventory up to date please contact the editor Marianne Vennegoor: mavennegoor@aol.com

Copyright
Write to the individual IFKF Council Member to request permission to reprint and use any of their material, should you wish to do so. The source of information should be displayed and referenced in any new material developed using the respective Kidney Foundation’s information. See also individual websites for the individual Member’s copyright.

Take the time to explore IFKF Council Member websites (where available)
Discover what multilingual resources are available. These organisations know what’s happening locally in their kidney community and many offer resources in the local language. Some offer chat rooms, message boards, health forums, ‘kidney’ blogs and podcasts. Using these network systems also offers a window into local information. Some of our Members have active profiles on Facebook and foster online discussions via Twitter.

IFKF HAVE THEIR OWN FACEBOOK AND TWITTER ACCOUNTS:

FACEBOOK:
TWITTER:

Kidney Foundations, Patients  Support and Advocacy Groups and Professional Organisations
Committees often use blog and message board postings for updates on their news, issues around patient advocacy - organ allocation for transplant, organ donation protocols, home dialysis and transport and professional issues as appropriate. Using online phone contact (such as Skype) enables individuals to contact people from their own country and abroad to talk in their native language about complications of CKD for free. See www.ifkf.org for suggestions.

Donations
Consider making a direct donation to an IFKF organisation in your home country, to help them progress with their important work. A direct donation to the work of the IFKF will help us foster international collaboration by exchanging ideas and experience to improve the health, wellbeing and quality of life of individuals with kidney disease.

Marianne Vennegoor
Emeritus Renal Dietitian: IFKF Board Member 2010-2013, Inventory Manager, Chair Education Committee

IKEAJ in collaboration with KEEP (KIDNEY EARLY EVALUATION PROGRAM USA)
IKEAJ has been established in partnership with the National Kidney Foundation (NKF) U.S. (lead group in this field) to facilitate collaboration among a wide range of people, to eliminate problems caused by kidney disease.
IKEAJ provides a free kidney health screening program - Kidney Early Evaluation Program - to patients affected by diabetes, hypertension and possibly the families of those affected by kidney disease.
