The National Kidney Foundation (NKF) of Malaysia takes the lead to develop and promote a continuing education programme to further renal nutrition education of registered dietitians, physicians, and other interested health professionals by organising the 4th Renal Nutrition Seminar.

This two-day conference will include topics on Intradialytic Parenteral Nutrition, Nutraceuticals for Inflammation, Muscle Wasting in Protein Energy Wasting and Phosphate Management in line with the Chronic Kidney Disease-Mineral and Bone Disorder (CKD-MBD) guidelines. NKF is fortunate to gain the support and collaboration of International Federation of Kidney Foundations (IFKF) for this Seminar and tap on the expertise of a renowned world faculty, Professor Joel D. Kopple.

We are cordially inviting you to share your ideas, experience and knowledge with the other participants from all over the world; and also to enjoy in the exploring beautiful city of Kuala Lumpur.

Dr. Thiruventhiran FRCP
Chairperson, Organising Committee

Professor Joel D. Kopple, is an American professor, physician, clinician scientist, educator, practitioner, consultant and investigator in medicine, nephrology, nutrition, and public health. He is currently professor emeritus at David Geffen UCLA School of Medicine and UCLA School of Public Health. He served from 1981 to 2007 as the chief of the Division of Nephrology at Harbor-UCLA Medical Centre. He is also known as the father of the field of Renal Nutrition.
